OBJECTIVE

I'm an undergraduate student currently in 5th semester with an Informatics major and interested in Android Software Development, seeking the opportunity to implement my knowledge skills and make a contribution to your organization. I have many soft skills and other important qualities which I developed through study, organization, community, and various other experiences through teamwork and collaboration. Communication, leadership, time management, and the ability to complete projects within deadlines, are some of the skills I excel at. In addition, I also have high self-confidence and a high desire to improve myself and learn other new experiences.
