PROFILE

A Mobile Developer with 3+ years of experience in Android development, specializing in mobile banking, employee self-service platforms, and consumer applications. Proficient in Kotlin, Jetpack Compose, Git, and project management tools like Trello and Jira. Experienced in mentoring and technical advisory as an Instructor and Advisor at Bangkit Academy. Adaptable, detail-oriented, and proactive in problem-solving and cross-functional collaboration. Eager to drive innovation in mobile development and build impactful digital solutions.

EDUCATION

Universitas Islam Negeri Syarif Hidayatullah Jakarta

Bachelor Degree of Computer Science, September 2019 - 2024

- Achieved GPA 3.72/4.00
- Related Courses: Programming Fundamentals, Data Structures and Algorithms, Algorithm Design and Analysis, Big Data, Artificial Intelligence, Software Engineering, Software Testing, Project Management
- Google Developer Student Clubs 2021/2022

EXPERIENCE

Software Engineer (Android), Nusantara Beta Studio (NBS)

(Mobile Banking Development for PT. Bank Danamon Indonesia – D-Bank PRO 2.0)

Jakarta, June 2024 – Present

- Placed at PT. Bank Danamon Indonesia, Tbk. to contribute to key Android mobile banking projects.
- Introduced QRIS for both domestic and international transactions to enhance digital payment accessibility.
- Expanded user payment options by developing and integrating mobile credit/data top-up, Telkom Pay, and PLN postpaid and biller services.
- Launched a cardless cash withdrawal feature, allowing users to withdraw cash at Danamon ATMs and partner merchants.
- Optimized UI development by pioneering the adoption of Jetpack Compose with bottom sheet flows and server-driven UI components.
- Collaborate cross-functionally with DevX, UI/UX, backend, and solution architects to ensure seamless feature integration.
- Architected and implemented a modular foundation to seamlessly decouple Personal and Business roles within the unified D-Bank PRO 2.0 app, establishing an extensible framework reused across multiple cross-functional feature teams.
- Engineered core enterprise capabilities for the SME (Small and Medium Enterprises) segment, driving the end-to-end development of the "D-Bank PRO Bisnis" dashboard, payroll processing systems, and high-volume business transactions.
- Spearheaded the integration of critical credit and corporate features, including the Kredit Rekening Koran (KRK) module and a robust, secure individual business registration and management workflow.

Android Developer, PT. Toyota Motor Manufacturing Indonesia

Jakarta, November 2023 – June 2024

- Developed the Employee Self-Service (ESS) app, MyTMMIN, for Toyota Motor Manufacturing Indonesia's employees (10,000+ downloads).
- Implemented core features including Allowance, Notes, Reimbursement, and Car Ownership Programs (CPP, COP, and 2nd COP).
- Reduced app load time by 30% and maintained a 98.9% crash-free rate.
- Implemented Clean Architecture and best coding practices for scalability. Implemented clean architecture and best coding practices, improving scalability and long-term maintenance.

Software Engineer (Android), Fishku Indonesia

Jakarta, July 2022 – April 2023

- Built and maintained team management, engagement, and learning & development
- Developed and maintained Android apps from scratch for consumer use, ensuring high performance and usability.
- Implemented clean architecture, creating robust, scalable, and maintainable code.
- Managed GitHub organization, streamlining version control and collaboration.
- Led project management migration to Trello, improving workflow efficiency and task tracking.
- Published open testing apps on Google Play Store, engaging 250+ testers for feedback and optimization.
- Launched production apps, achieving 100+ downloads and ensuring a smooth user experience.

Mobile Developer Advisor, Bangkit Academy led by Google, GoTo, & Traveloka

Jakarta, May 2024 – January 2025

- Mentored and advised 9 capstone project teams specializing in Mobile Development, ensuring successful project completion.
- Achieved a 5/5 performance rating, reflecting strong mentorship and project success.
- Provided technical guidance and monitored team progress, offering strategic insights to overcome development challenges.
- Evaluated and optimized team proposals, aligning them with industry standards and feasibility.
- Facilitated knowledge-sharing sessions to enhance team capabilities and problem-solving skills.
- Provided technical guidance on best practices, architecture, and coding standards for scalable mobile apps.

Mobile Developer Instructor, Bangkit Academy led by Google, GoTo, & Traveloka

Jakarta, May 2024 – January 2025

- Selected as 1 of 300 Instructors from 442 applicants for Bangkit 2024, a prestigious tech education program.
- Mentored and educated a cohort in Android Development using Kotlin, providing hands-on learning experiences.
- Guided students through required coursework, ensuring comprehension and practical application.
- Shared real-life industry insights, bridging the gap between theory and professional practice.
- Achieved a 93% graduation rate, successfully helping students complete the program.
- Earned a 4.72/5 performance rating for delivering 5 impactful sessions with engaging instruction.

ACHIEVEMENTS

Google Developer Groups on Campus Lead, UIN Syarif Hidayatullah Jakarta

Jakarta, August 2021 - July 2022

Best Participant in Android Developer Club, HIMTI DEV 2021, UIN Jakarta

Tangerang Selatan, July 2021

1st Place in Science and Technology UIN Jakarta Olympiad

Tangerang Selatan, October 2021

AWARDS AND

SKILLS

- **Mobile Development:** Kotlin, Jetpack Compose, Clean Architecture, UI/UX Optimization
- **Version Control & Collaboration:** GitHub, GitLab, Bitbucket, Git, Code Review
- **Project Management:** Trello, Jira, Agile Methodology
- **Mentorship & Training:** Technical Advisory, Knowledge Sharing, Team Development
- **Soft Skills:** Critical Thinking, Problem-Solving, Leadership, Teamwork, Communication, Community Organizer
